

Water Bag, Aqua Drop “Pearl” - black (#4201-9004)

The water-filled “Pearl” punching bag from TOP TEN absorbs blows dynamically and protects your joints. It is ideal for **intensive punching training** – whether you are a professional or just starting out. UV resistant and waterproof, you can use the “Pearl” both **indoors and outdoors**. It is extra quiet, making it particularly suitable for any home gym.

Further advantages:

- Net weight approx. 3.5 kg
- Outer shell made of durable PVC with a 15-inch diameter
- Can be filled with water to suit your needs
- Pleasant feel when struck
- Can be used indoors and outdoors

A heavyweight that impresses – TOP TEN tear drop Water Bag “Pearl.”

Your TOP TEN Pearl Aqua Drop is delivered **unfilled**. So before you can get started, fill the PVC bag with water. With a **filling weight of approx. 34 kg**, we recommend filling the Pearl in its final position. Depending on your training goal, you can **adjust the hardness of the bag by adjusting the fill level**. You get hard resistance when the bag is filled to less than 80%. The less water the “Pearl” carries, the softer the impact.

“Pearl” is a space-saving all-rounder for indoor and outdoor use.

If the sun is calling you outside, then the “Pearl” water punching bag is ready to go. Its **robust PVC material** makes it **weatherproof** and therefore perfect for spontaneous outdoor sessions. **D-shackles and metal chains** are included in the delivery – so you can quickly move it around. Empty it of water and off you go to your new training location. If the “Pearl” is not needed for a longer period of time, it can be **completely emptied and stored to save space**.

Gentle training for all performance levels.

All performance levels in martial arts benefit from the “Pearl” concept. When fully filled, you get a tough training partner with **lots of resistance and little swing**. The water-filled interior **absorbs the impact energy**, protecting your ankles and joints. Hard kicks and punches are no problem for the Water Bag. Its tear-drop shape provides a **perfect target area**, ideal for anyone who **wants to perfect their technique**.

Put your trust in waterpower and get the TOP TEN tear-drop Water Bag “Pearl” right here from the Budoland Onlineshop.
